Activity description

Your adventure begins at Cova da Xabreira, where a circular 3km route will take you through the stunning vineyards and winery facilities. Adding a unique touch to the experience, you'll be accompanied by a ***Fariñeiro donkey***, a native animal currently endangered.

Along the way, you'll have access to 360° virtual content, offering an insider's look at the vineyard's year-round work and winemaking process. A local expert guide will share fascinating stories about the village and its winemaking heritage.

You'll enjoy five carefully selected wines, each reflecting the essence and tradition of the region.

The journey ends at a scenic viewpoint, where you'll be treated to local delicacies while taking in the breathtaking landscape.

For those looking to extend the experience, reservations can be made at the winery's restaurant, where local gastronomy takes centre stage.

Eco-Friendly Practices

> Support the preservation of the Fariñeiro donkey, raising awareness about endangered species.
> Use 360° digital content to reduce printed materials and minimize waste.
> Promote local products to support the circular economy.
